

AIMAN MUSHTAQ

Full-Stack Developer • AI Integration Engineer

Ottawa, ON • aimanmushtaq5028@gmail.com • [linkedin.com/in/aimanmushtaq89](https://www.linkedin.com/in/aimanmushtaq89) • github.com/Aiman03at

SUMMARY

Full-stack developer with 3+ years of production engineering experience and a working AI specialization. 2nd place winner of the Scaled Without Borders AI Hackathon (May 2026), selected among 100 builders, shipped **Safe-Hire** solo in a single day. Six completed Anthropic credentials with Claude Certified Practitioner in progress. Canadian PR, Ottawa-based, open to startup, remote-first, and Government of Canada CS-01/CS-02 roles.

TECHNICAL SKILLS

Languages: JavaScript (ES2022+), TypeScript, Python, SQL, HTML5, CSS3

Frontend: React, Vite, Tailwind CSS, Framer Motion, TipTap, Responsive Design

Backend: Node.js, Express, FastAPI, REST APIs, WebSockets, PostgreSQL, Prisma ORM

AI / LLM: Claude API, OpenAI API, Model Context Protocol (MCP), Agent Skills, GitHub Copilot, Prompt Engineering

DevOps: Docker, GitHub Actions, CI/CD, Vercel, Linux, Git, Jest (80%+ coverage)

PROFESSIONAL EXPERIENCE

Software Engineer | *Connect Smart Consulting, Hyderabad* | 2020 to 2023

- Shipped RESTful APIs serving 10,000+ users across production client applications.
- Cut API response time 40% through query optimization, indexing, and payload reduction.
- Reduced React page load time 35% via code splitting and component refactors.
- Maintained 80%+ Jest test coverage on client-facing applications.
- Owned full delivery cycle from requirements through deployment and post-launch support.

SELECTED PROJECTS

Safe-Hire • *AI Job Posting Analyzer* • safe-hire-delta.vercel.app • github.com/Aiman03at/safe-hire

- 2nd place, Scaled Without Borders AI Hackathon (May 2026).** Built solo in 24 hours against 99 other selected builders.
- Three modes: fraud detection, pre-screened remote job search, and posting quality audit and rewrite.
- Fraud detection score 95/100, security 96/100. Stack: React, TypeScript, Claude API.

SupplySync • *Real-Time Supply Chain Platform (in active development)*

- Monorepo with WebSocket real-time sync, ML predictive analytics, Docker containerization, and CI/CD.
- Stack: React, TypeScript, Node.js, FastAPI, Socket.io, Docker.

Switchie • *AI-Powered Career Transition App (in active development)*

- LLM-powered context-aware guidance for professionals navigating career change. Built on Claude and OpenAI APIs.

Daycare Management System • github.com/Aiman03at/Daycare_Management

- Full-stack platform with JWT auth, role-based access (Admin, Educator, Parent), child profiles, attendance, meals, and health tracking. 94% TypeScript.

EDUCATION & TRAINING

Full-Stack Web Development • *Lighthouse Labs, Ottawa* • 2024

M.Sc., Computer Science • *JNTU Hyderabad* • 2014

B.Sc., Computer Science & IT • *Osmania University* • 2011

CERTIFICATIONS

Anthropic: Claude 101 • Claude Code 101 • AI Fluency Framework & Foundations • AI Capabilities & Limitations • Model Context Protocol • Agent Skills (2026)

Claude Certified Practitioner (in progress, 2026) • **ISTQB Foundation Level 4.0** • **Microsoft Azure Fundamentals (AZ-900)**

Status: Canadian Permanent Resident • Eligible to work without restrictions • Published on Dev.to and Hashnode
